

## Vale introduces the Learning Bundle for 2023

Vale is excited to announce its Learning Bundle. With each course registration we will provide several new services along with your registration. The goal in applying these services is to extend the learning process beyond the classroom and give you access to support materials when you are back on the job. We have simplified pricing to include these services as a bundle rather than pricing individually – giving you more value and opportunities to grow. The Bundle includes:

- Resource materials:
  - Digital course workbook
  - Job aids
  - Graded assignments/estimates
- Continuing Education – CE credits:
  - Discount code for state pre-licensing, OSHA and continuing education course credits
  - Property program graduates can receive IICRC continuing education credits for each course
- Learning tools:
  - *Contact a Trainer*, outreach to your instructor for expert advice
  - 30-day trial subscription to our *SprinkleZone Library* – An adaptive learning tool to hone your skills with Q&A on multiple subjects with supporting feedback.
